

**Boulder Valley Models .....#381 Rambling Roadrunner**

- ★ Please be sure to read the instructions before you begin! Take time to wash and identify parts and familiarize yourself with their orientation.

Narrow gauge railroads have used all sorts of rail vehicles thru the years for crew transit, track maintenance and occasionally even to turn some extra profits ... so our shop foreman took one look at the new stakebed railtruck and quickly decided that it would be a great start for cutting costs on the railroad's profitable mail and local freight services.

We've kept our Rambling Roadrunner pretty simple so far, but it's easy to imagine loading it up with details like a driver, horn, small bell and maybe even a passenger on the rear deck. Special thanks to On30 modeler Don Kralik for his inspiration on this project!

***Thank you for your continued support!***

-- Dallas Mallerich, owner & On30 modeler

**Check our web page for more color photos and painting tips!**
